EDUCATION

Indira Gandhi Delhi Technical University for Women, Delhi, India - *B.TECH,
INFORMATION TECHNOLOGY*

Dec 2020 — May 2024

WORK EXPERIENCE

Software Developer Intern, neoG Camp, Remote

Jul 2025 — Present

- Developing **full-stack applications** using **React, JavaScript, REST APIs, HTML, and CSS** in a structured training program with **performance-based milestones**.
- Built **CRUD systems** and performed **API testing** using **Postman**.
- Worked with **Redux, TypeScript, authentication mechanisms**, and implemented **performance optimizations**.

PROJECTS

Urban Gardening India, [Link](#)

Feb 2024 — May 2024

- *React | TypeScript | Tailwind CSS | Gemini AI*
- Built a **full-stack e-commerce platform** with shopping cart, **multi-step checkout**, and **order tracking** using **React Context API** for centralized state management
- Developed a **gardener booking system** featuring **pincode-based search**, appointment scheduling, and **real-time booking confirmations**
- Integrated **Google Gemini AI API** to perform **plant health diagnosis** from uploaded images, including **species identification and treatment recommendations**

Glowora – Full-Stack E-Commerce Platform , [Link](#)

- *React.js | Node.js | Express.js | MongoDB | Mongoose*
- Built a **responsive full-stack e-commerce platform** with shopping cart, wishlist, and **multi-address checkout** using **React** frontend and **Node.js/Express** backend
- Developed **30+ RESTful APIs** and designed **7 MongoDB collections** with **Mongoose**, implementing **CRUD** operations, data relationships, and query population
- Implemented **dynamic product filtering**, **real-time cart price calculations** (tax & delivery charges), and **global state management** using **React Context API** across **12+ pages**

SKILLS

Programming Languages : Python, JavaScript

Frontend : HTML, CSS, Bootstrap, React.js, Tailwind CSS, TypeScript

Database Management : SQL, MongoDB

Backend : Express.js, Node.js, REST APIs

Development Tools : VS Code, GitHub, Vercel, Postman

CERTIFICATIONS

The Complete Web Development Bootcamp , Udemy

Python Course from Zero-to -hero , Udemy

Generative AI Mastermind , Outskill

POSITION OF RESPONSIBILITY

Developer at Celestial Biscuit IGDTUW

May 2023 — Dec 2023

Contributed to impactful technical projects, solving real-world challenges with full-stack solutions.

Selected for Microsoft Engage Mentorship Program

May 2022 — Jul 2022

Developed a Face Recognition Attendance System using OpenCV, achieving 98% accuracy.

Mentor at Desh ke Mentor

Mar 2021 — Dec 2021

Mentored four senior girls in STEM, promoting their interest in technology and guiding their academic journey, showcasing my leadership and mentorship skills.
